</tbody>
</table>

### Comments

Primary command characters **underlined** and **bold** signify abbreviation

- Placing the cursor on a row and pressing ENTER will select the member
- Wild cards (% and *) can be specified in the member name
- Line commands can be blocked or numeric, example: DD-DD or D9999
- Type LEFT (F10) or RIGHT (F11) to display different columns
- The 'Status' field allows typing in a member name for some commands
- Type HELP (F1) to display tutorials
- Several line commands can be typed in at once
